	\$185,462,256.18
	<hr/>

A mutual Savings Bank has no capital stock and no stockholders to whom dividends must be paid. It is managed solely for the depositors. The earnings are paid out in interest to them, with the exception of a reasonable amount set aside to surplus. This adds to the strength of the Bank and to be strong is the Bank's first consideration.

A depositor in a Savings Bank is a part owner of the Bank. His money is working for HIM.
